No treatments will be rendered until we understand completely whether your condition is a good fit for our treatments and you are comfortable with our clinical approach.

If you are accepted as a patient, we will clearly help you understand your responsibility for services rendered. In cases where someone has insurance benefits, you are responsible for deductibles and copays that your insurance requires as well as any services not covered under your policy. For those without insurance or limited coverage, that is not a problem. We have easy and affordable payment options for you to get the care that you need.

Once we have enough information to determine whether or not you can be helped in our clinic, we will spend all the time necessary to help you understand your condition and what options there are to help you get better, as well as those treatments or therapies that may be available to you even outside our facility.

Thank You

I understand that this healthcare facility is making extensive effort to protect my personal privacy and information. I understand that there are some treatments and procedures that are not in a private setting such as, therapy tables and exercise rehabilitation. If I am uncomfortable with that setting, then I will notify the staff and they will try to accommodate me as much as possible. I also give permission for the office to leave messages regarding future appointments and information related to my care. Federal and State laws (HIPPA) requires all healthcare facilities to adhere to their policies regarding the release and disclosure of medical records. Records and x-rays are the property of this facility. Copies of records may be received only by authorization of the patient or guardian, request must be in writing and payment of those copies follow the usual/customary costs. 7-10 business days is required to process this request. I have received a copy of the privacy protection policy.

Necessary procedures will be discussed with the doctor on a case basis. I give the office staff permission to use their best clinical judgment regarding what is necessary to handle my case. I understand that occasionally it may be necessary for another doctor/therapist to treat me.

I understand that as with all medical procedures and treatments there are risks such as fracture, stroke, and the possibility that there will be no or little benefit for my particular condition. There is no guarantee of a cure. I understand that the doctor will explain the risk-benefits, prognosis of my condition and refer to another provider if needed. I understand that it may not be possible for every risk factor to be explained to me, I expect the doctor to use his best judgment in the management of my care. I also understand that the intent of this facility is to facilitate healthy body function primarily to musculoskeletal conditions and some individuals may need a medical provider to diagnosis and treat a certain disease. If medicines are prescribed, then risks will be explained. Medicines can only be administered by the medical doctor on staff.

Payment plans and discounts are available; please ask if you are interested.

We are happy to file claims for you if appropriate. However, disputes regarding coverage, benefits, payments, etc. are strictly between the patient and the insurance company. Most insurance claims involve delay before we receive payment. Please keep in mind that we can't guarantee payment from the insurance company, your insurance is your responsibility and we may need your help to collect your claims for you. Ultimately, you are responsible for payment of any services.

I certify that I understand the above office policies and agree to abide by the same.
