Any condition not listed above? _____

No treatments will be rendered until we understand completely whether your condition is a good fit for our treatments and you are comfortable with our clinical approach.

If you are accepted as a patient, we will clearly help you understand your responsibility for services rendered. In cases where someone has insurance benefits, you are responsible for deductibles and copays that your insurance requires as well as any services not covered under your policy. For those without insurance or limited coverage, that is not a problem. We have easy and affordable payment options for you to get the care that you need.

Once we have enough information to determine whether or not you can be helped in our clinic, we will spend all the time necessary to help you understand your condition and what options there are to help you get better, as well as those treatments or therapies that may be available to you even outside our facility.

Thank You
